## A circular stamp with the text "QUALITY INSPECTED" curved along the top inner edge and the number "1" at the bottom center.

## II. DATA BASE DESCRIPTION

A. ELEMENTS. The data elements contained in the data base are listed below. They are divided into two major groupings: installations data, or that data describing the basic installation on which the range is located; and ranges data, that data describing individual ranges on or belonging to an installation.

### Installation Data

Installation name	Nearest urban area
Point of contact	Address/location
Major user/component owner	Major command
Congressional district	

### Range Data

Primary use category	Alternate use categories
Weapons authorized	Ordnance/Ammunition authorized
Firing points/lanes	Utilities
Weapons/Ordnance/Ammunition restrictions or caveats	Facility status
Environmental restrictions	Indoor/outdoor facility
Community restrictions	Type of training facility
Range limitations/range denials	

B. DEFINITION OF TERMS. Across Services, many different terms are used to describe ranges and training areas. In consolidation of data from all available sources, the following terms have been used in the development of a data dictionary. This glossary is furnished to permit ready translation among Services for the current data base.

### Dictionary of Terms

#### Installations Data Element Descriptions:

ADDRESS/LOCATION: The actual location or address of an installation if not contained in the point of contact data set.

CONGRESSIONAL DISTRICT: The congressional district in which the installation is located.

INSTALLATION NAME: Name of the installation, base, post, or facility the range is located on or associated with.

MAJOR COMMAND: The major command having cognizance over the installation, e.g., TRADOC, FORSCOM, FIRST Army, LANTFLT, TAC, SAC, etc.

MAJOR USER/COMPONENT OWNER: The major user or owner Service component. Categories are: Army, Navy, USMC, USAF, USCG, Army National Guard, Air National Guard, Army Reserve, Naval Reserve, AF Reserve, USMC Reserve, USCG Reserve, DOD, Federal non-DOD, State agency, municipal agency, private, foreign.

NEAREST URBAN AREA: Name of the nearest urban city or town to the installation. Not used if the installation is located within the city limits of the address identifier.

POINT OF CONTACT: A set of data elements which may include any or all of the following: name or title, organization, address, telephone numbers (commercial and/or AUTOVON). This point of contact is used for further details concerning ranges located at a particular installation. Point of contact may or may not be co-located with the installation in question.

Ranges Data Element Descriptions:

ALTERNATE USE CATEGORIES: Alternate uses of a particular range, where applicable. For example, a rifle qualification range may also be applicable for use as a pistol qualification range, or as a shotgun range. A maximum of four alternate uses are currently available in the data base.

COMMUNITY RESTRICTIONS: Conditions related to the use of a range due to local community conditions or situations which may apply. Proximity to residential areas, firing times restrictions are available.

ENVIRONMENTAL RESTRICTIONS: Conditions related to the use of a range due to environmental conditions or situations which may apply. Non-availability during various seasons, approval of other agencies, restrictions relating to wildlife or ecological factors are contained herein.

FACILITY STATUS: The current status of the facility. The current conditions which are included are: Active, Limited Use, Limited Use due to OSHA restrictions, Deactivated, Inactive, or Under construction/modernization.

FIRING POINTS/LANES: The number of firing points, lanes, or positions, where applicable, at the range.

INDOOR or OUTDOOR FACILITY: an indication as to whether the facility is an indoor or outdoor facility.

ORDNANCE/AMMUNITION AUTHORIZED: Ordnance or ammunition which may be used on the range. Caveats concerning this ordnance or ammunition are contained in the weapons restrictions. Up to four categories of ammunition may be contained in this data element set, e.g., 5.56mm, 66mm LAW, 22mm sub-caliber mortar, TOW, etc.

PRIMARY USE CATEGORY: The primary use of a particular range, e.g., basic 25 meter firing/zeroing range, rifle qualification range, known distance range, mortar range, etc.

RANGE NAME/NUMBER: The range name or number used by the installation. If no number or name is assigned, a number is given to the range for sorting purposes.

RANGE USE LIMITATIONS/RANGE DENIALS: Limitations or denials to other ranges due to use of the range.

TYPE OF TRAINING FACILITY: Each range is currently classified into one of the following categories: Firing Range, Non-firing Range (including maneuver/exercise areas), or Training Facility (other than a firing range or maneuver area).

UTILITIES: The availability of latrines/heads, running water, and electrical utilities. Comments concerning these utilities are contained in the environmental restrictions data element.

WEAPONS AUTHORIZED: Weapons which may be used on the range. Caveats concerning these weapons are contained in the weapons restrictions. Up to four categories of weapons may be contained in this data element set, e.g., pistol, M-16, M-60 LMG, M203 grenade launcher, mortar, etc.

WEAPONS/ORDNANCE/AMMUNITION RESTRICTIONS OR CAVEATS: Any weapons, ordnance, or ammunition restrictions or caveats applicable to the use of a range.

### III. OVERVIEW

Three tables are presented to summarize the data presented in detail in the following sections. These and other displays shown in this report are provided only as examples to illustrate capabilities of the data base to answer queries from training managers at all levels. Table 1 provides a simple overview or summary of the total number of installations/ranges surveyed for the seven states. This data is sorted by state.

Table 2 displays the number of installations and respective ranges by state and is sorted by the installation's major user/owner Service component. Table 3 lists by state the types of ranges (small caliber weapon use categories of pistol, .22 caliber rifle, M-16/5.56mm rifle, and M-60/7.62mm light machinegun) with their respective total number of firing points.

Table 1

## Summary: Small Caliber Ranges in Northeast United States

	Total Installations	Number of Installations with Ranges	Number of Small Caliber Ranges
Connecticut	57	26	28
Maine	61	28	30

Totals	21	428	207	641	52	1630	12	148

#### IV. DIRECTORY OF SMALL ARMS RANGES BY STATE

The small caliber ranges are listed at Tab A by state and by weapons type. The listings are broken down first for weapons type (pistol, .22 caliber rifle, M-16/5.56mm rifle, and M-60/7.62mm light machinegun) within each state. For each range, the following data are displayed:

- Installation/Range name
- Facility Status
- Number of firing points or lanes
- Environmental restrictions flag (Yes or No)
- Community restrictions flag (Yes or No)
- Point of contact telephone number

Text concerning environmental or community restrictions, as applicable, is contained in the appropriate data element sets. The Yes or No shown in Format 1 indicates that that there is text in that element set. Reference to the data base will be necessary in order to ascertain the actual text contained therein.

The current facility status, as known, is shown. The categories used are: Active, Inactive, Limited (limited use - reference to the data base will be necessary to ascertain the reason for the limitation, usually OSHA regulations), Deactivated, and Under construction.

Other displays are also possible. In fact, the data can be formatted using any of the fields, or partial fields, of the data elements as identified in section II, Data Base Description. Data sorts are only constrained by the number of data elements and categorical values contained within those data elements.

In addition to the small caliber ranges listed herein, the survey also captured data on mortar and scaled mortar ranges located at Camp Edwards, MA, Fort Devens, MA, Ethan Allen Firing Range, VT, and West Point Military Reservation, NY. Field artillery ranges were located at Camp Edwards, MA, Fort Drum, NY, Ethan Allen Firing Range, VT, and West Point Military Reservation. Field artillery scaled ranges (M31 14.5mm field artillery trainer) were located at Camp Edwards, MA, Camp Curtis Guild, MA, Fort Drum, NY, West Point Military Reservation, Hopkins-Everett Reservoir, NH, and Ethan Allen Firing Range, VT.

The number or name following each installation name is the range name/number used by the installation or an assigned number to differentiate between multiple ranges on the same installation.

#### V. MIXED USE RANGES

The range data displayed in the previous section was arranged by weapons type. Since many of the ranges are designed for more than one weapons type, a different look at those multiple use ranges is presented at Tab B. For each range that is designated for alternate categories of use, the data concerning these installations and ranges is displayed. The data is arranged alphabetically by installation within each state. The data element sets presented are:

- Installation name
- Major user/component owner
- Major command

- Range name/number
- Firing points/lanes
- Primary and alternate uses
- Weapons Authorized
- Ordnance/ammunition authorized
- Facility status
- Indoor or outdoor facility
- Weapons restrictions or caveats
- Range use limitations/range denials
- Environmental or community restrictions

#### VI. INSTALLATION SURVEY

Tab C is a list of all installations surveyed for this data base. The list is grouped alphabetically by state. The Range Yes or No column indicates whether or not the installation has any small caliber ranges.

While every attempt was made to obtain a complete picture of the small caliber range capabilities at the time of this project, it is recognized that some facilities may have been overlooked, new ranges are being constructed and existing facilities are being converted to other usage or configuration. Readers of the report are encouraged to contact the Defense Training Data and Analysis Center with additions or corrections to this report.

The Collective and Joint Training Division point of contact is Mr. Joe Nicholson, commercial (305) 281-3623. Collect calls will be accepted.
